A number in parentheses () indicates the number of birds observed at a particular location or on a particular date. No number signifies single birds. Place names given in italic type are counties. The sequence of records within species accounts, except for maximum counts, begin in northwest Illinois (Jo Daviess, Carroll and Whiteside counties), proceed to the east, then continue back and forth across the state in a systematic pattern with the southernmost records at the end.

Transparent directionals (n.=north(ern), ne. = northeast(ern), etc.), and including c.= central, are used where applicable. Words referring to natural features are generally not abbreviated in names of residential communities (thus Forest Park, Fall Creek, Garden Prairie, etc.).

Headings for species requiring IORC (Illinois Ornithological Records Committee) review in parts of Illinois, in some plumages, or their seasonal rarity are underlined, while those for species requiring review of all records are CAPITALIZED AND UNDERLINED. Documentation of such records through the IORC would be appropriate and appreciated. Records pending IORC review are enclosed in square brackets []. The IORC review list can be viewed at the IOS/IORC website, HYPERLINK "<http://www.illinoisbirds.org/iorc.html>" <http://www.illinoisbirds.org/iorc.html>. Noteworthy dates and sites of occurrence and remarkably high counts for the state as a whole or for particular regions of the state are underlined and/or boldfaced,

and some further editorial remarks are also boldfaced. Four-letter alpha or bird-banding codes in capitalized letters (e.g. WODU for Wood Duck, PUMA for Purple Martin, etc.) developed by the USGS Bird Banding Laboratory are occasionally used as abbreviations within the species accounts.

Remarks on the historical significance of records aim to be valid for the corpus of data published in H. David Bohlen's 1989 *Birds of Illinois* and the seasonal summeries in the *Illinois journals Illinois Birds and Birding* (summer 1984 – spring 1991) and *Meadowlark* (summer 1991 – present). Data from other sources may have bearing on the validity of these remarks. Species names and sequence correspond to the American Ornithologist's Union Check-List of North American Birds and its supplements through the 54th supplement (2013). The 2003 DeLorme *Illinois Atlas & Gazetteer* has been used as a standard for spelling of place names for sites included therein.

Some records not printed here may still be under IORC (Illinois Ornithological Records Committee) review; when completed, they will appear in the published IORC report. As standard policy, all observers, regardless of experience, must fully document all unusual observations. Easy to use documentation forms are available from IORC Secretary, Paul Sweet, 2114 Elisha Ave., Zion, IL 60099. Completed documentation forms of "listed" species should be submitted to the IORC Secretary within one week of the observation.
