Headings for species requiring IORC (Illinois Ornithological Records Committee) review in parts of Illinois or in some plumages are underlined, while those for species requiring review of all records are CAPITALIZED AND UNDERLINED. Records pending IORC review are enclosed in square brackets [ ]. The IORC review list can be viewed at the IOS/IORC website, <http://www.illinoisbirds.org/iorc.html>. Noteworthy dates and sites of occurrence and remarkably high counts for the state as a whole or for particular regions of the state are underlined and boldfaced, and some further editorial remarks are boldfaced.

Remarks on the historical significance of records aim to be valid for the corpus of data published in H. David Bohlen's 1989 *Birds of Illinois* and the seasonal summaries in the Illinois journals *Illinois Birds and Birding* (summer 1984 - spring 1991) and *Meadowlark* (summer 1991 - present). Data from other sources may have bearing on the validity of these remarks..

The 2003 DeLorme Illinois Atlas & Gazetteer has been used as a standard for spelling of place names for sites included therein.
