

Abbreviations: References to seasonal reports in the journals *Illinois Birds and Birding*; *Meadowlark, A Journal of Illinois Birds*; *American Birds*; *Field Notes*; and *North American Birds* are abbreviated by IBB, MJIB, AB, FN, and NAB, respectively, followed by volume and page numbers; note that the first two issues of MJIB (Volume 1, Numbers 1 and 2) were paginated separately, not sequentially within that volume, and the journal number is included for those two issues. Months are abbreviated by their first three letters.

## Review List

As in past reports, the Review List is provided to indicate those birds the observer might encounter that the Committee is most interested in reviewing. These are species that, in general, average four or fewer records per year in the state, or that are extremely rare in all but a few counties in the state. The current review list was approved at the 8 August 1999 Committee meet-
