

report provide the Committee's best assessment of all available information. We have not generally commented on records that are published elsewhere with more limited data than contained here, but we have made explicit note of apparent errors in published data. The Committee accepts responsibility for any inaccuracies or misrepresentations of information herein. Errors that come to our attention will be published as corrigenda in a future IORC report.

Abbreviations: References to seasonal reports in the journals *Illinois Birds and Birding*; *Meadowlark*, *A Journal of Illinois Birds*; *American Birds* and *North American Birds* are abbreviated by IBB, MJIB, AB, and NAB, respectively, followed by volume and page numbers. Months are abbreviated by their first three letters. County abbreviations largely follow those adopted in Johnson, Deaton and Clyne (1998).

"Northern", "central", and "southern Illinois" refer to specific subsections of the state as first defined by Gault (1922); see also Bohlen (1978). The terms "region" and "regional" apply to the Middlewestern Prairie Region as used in FN and NAB and include Illinois as well as Iowa, Missouri, Indiana, and most of Ohio and Kentucky.

Documentors: Richard Anderson, Lawrence Balch (LBa), Frank Bennett, Nancy Bent, Laurence Binford (LBi), Richard Biss, H. D. Bohlen, Paul Bauer, Brian Chandler, Robert Chapel, Charles Clark, Paul Clyne, Joan Dowler, Robert Fisher, Urs Geiser, Glenn Giacinto, Eric Goldman, Leroy Harrison, Ann Haverstock, Brian Herriott, Scott Hickman, Margaret Horsman, Robert Hughes, Cathy Hutcheson, David B. Johnson, George and Rosaline Johnson, David Jones (DJs), Dan Kassebaum, Vernon Kleen, Jerry Kumery, Greg Lambeth, John Leonard, Travis Mahan (TMh), Tom Marquardt (TMr), Carolyn Marsh, Jeff McCoy, Keith McMullen, Steve Mlodinow, Joanne Mueller, James Neal, Bruce Peterjohn, Lee Ramsey, Robert Randall,

Michael Retter, Charlene Robinson, Bruce Rowland, William Rudden, Dan Scheiman, Eric Secker, Wes Serafin, Jonathan Simms, Phoebe Snetsinger, Larry Sowers, Jim Sullivan, Robert Timm, Ken Vail, Jenny Vogt, Patrick Ward (PWrd), Peter Weber (PWb), Dave Willard, Geoff Williamson, Ken Wysocki .

Membership: Current members of the IORC are: Steven D. Bailey, Paul Clyne, Robert Hughes, David B. Johnson (Vice-Secretary), Dan Kassebaum, Keith McMullen, and Douglas Stotz (Secretary). Alternates on the Committee are: Richard Biss, Robert E. Fisher, Joe B. Milosevich, and David Willard.

Review List: The Review List includes species for which the committee will review all records or all records outside of some determined range within the state. These are species that, in general, average two or fewer records per year in the state, or which are extremely rare in all but a few counties in the state. The current review list was approved at the 18 January 2003 committee meeting. IORC requests and welcomes evidence concerning all records for the review species listed on the review list on the IOS/ IORC website: <http://www.illinoisbirds.org/iorc.html>. In addition, any species not listed in the checklist of Illinois state birds (IORC 1999) should be documented. Documentation of regular species may be appropriate when they occur out of season—i.e., exceptionally early arrival dates or late departure dates for migratory species. All first state nesting records should also be documented. Exceptionally high counts of species may also merit documentation. These documentations should generally be sent to the seasonal editor of the Field Notes in the Meadowlark.

Acknowledgments: This report is made possible by the thoughtful, careful, and timely review by all Committee members both past and current, and by the support of Illinois birders and institutions which contributed evidence of Illinois birds by specimens, documentations, photographs, and/or videotapes.

ACCEPTED RECORDS — Review List Records Accepted (57 records of 42 species)

Black-bellied Whistling-Duck (*Dendrocygna autumnalis*) One shot at Highland Silver Lake MAD on 2 Nov (2001.061; EG). The committee examined photos of the bird before mounting as well as the taxidermied mount of this extraordinary bird. There was no evidence of wear on the plumage, bill or toenails, as might be expected in captivity. The species is increasing dramatically in Florida, and with that increase, vagrant records in the eastern US are on the increase as well. This is the first accepted record for Illinois.

Trumpeter Swan (*Cygnus buccinator*) R. M. Barnes collected a female at Lacon MAR on 1 Dec (1917.002, FMNH # 96677) and an undated male also from Lacon MAR (1917.001, FMNH # 96676). These represent the most recent specimens of the original population of Trumpeter Swan in Illinois. Currently, there are annual reports of Trumpeter swans as migrants and wintering birds from the reintroductions north of Illinois. At this point, the committee considers these populations to be unestablished, so these records are treated as exotics.

Cinnamon Teal (*Anas cyanoptera*) A pair at Carlyle Lake CLI on 21 Apr (2002.040; DK*). Male Cinnamon Teal no longer is reviewed by the committee. However, the female of this pair is the first documented record of a female Cinnamon Teal in Illinois. Details of this observation, including photographs, are provided by Kassebaum (2002).

Eurasian Wigeon (*Anas penelope*) A male at East Fork Lake RIC on 1 Nov (2002.018; LH). This bird appears to have been an adult male
