Transparent directionals
 (n. = north(ern), ne. = northeast(ern),
 etc.) are used where applicable.

Remarks on the historical significance
 of records aim to be valid for the corpus
 of data published in Bohlen's 1989
Birds of Illinois and in the seasonal
 summaries in the Illinois journals
Illinois Birds and Birding (summer
 1984 - spring 1991) and *Meadowlark*
 (summer 1991 - present). Most of these
 remarks were supplied by Paul R.
 Clyne.

Headings for species requiring IORC (Illinois Ornithological Records
 Committee) review in parts of Illinois or in some plumages are underlined,
 while those for species requiring review of all records are **CAPITALIZED**
AND UNDERLINED. Records pending IORC review are enclosed in square
 brackets []. The IORC review list can be viewed at the IOS/IORC website,
<http://www.illinoisbirds.org/iorc.html>. Noteworthy dates and sites of occur-
 rence and remarkably high counts for the state as a whole or for particular
 regions of the state are underlined and boldfaced, and some further editorial
 remarks are **boldfaced**.

The 2003 DeLorme *Illinois Atlas & Gazetteer* has been used as a standard for
 spelling of place names for sites included therein.
