

IOS Listers Corner 2014

Total Counties per Species List - Central Region

(Top five totals per species - 40 possible counties)

The Central Region has more counties than any other region, and has relatively few resident birders, so it is not surprising that it is a bit harder to 'close out' species here. Nonetheless, this feat has now been accomplished for 57 species. Because these are cumulative tallies, and because county listing in such a big region requires a lot of birding time, the results of 'veterans' tend to dominate in these lists. However, newcomers can make their mark, and in the case of Nathan Goldberg even claim a share of the top spot (for White-winged Scoters)! Some other notable updated totals include 31 counties for both Greater White-fronted and Snow Geese and 25 American Woodcock counties (Michael Baum), 6 Tundra Swan counties (Pete Moxon), as well as 25 Kentucky Warbler and 16 Henslow's Sparrow counties (Jim Mountjoy). Look carefully and you will find many other impressive numbers.

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total.

(updated 9/15/15)
