

IOS Listers Corner 2015

Total Counties per Species List - Northern Region (Top five totals per species - 24 possible counties)

The regional TCPS lists got a lot more competitive this year, and the impact of this was felt most strongly in the northern region, with its abundance of active birders. For the first time, Jeff Chapman has submitted a regional breakdown of his very strong TCPS numbers, and we also have new submissions from Jeff Smith, Andy Sigler's many closed-out species, and new numbers from Pete Moxon that include sightings from previous years as well as 2015. The result of all of this is that two more species have been closed out (for a regional total of 116 species): Cackling Goose (Jeff Chapman) and Purple Martin (Andy Sigler). Many other species have also had their maximum number of counties increased (Pete Moxon). Of course, this also means that many people were 'bumped' from the list for particular species, so we will see if they can reclaim a position in 2016!

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total.
