

IOS Listers Corner 2016

Total Counties per Species List - Northern Region

(Top five totals per species - 24 possible counties)

With more birders than any other region, and fewer counties that need to be visited, it is not surprising that the Northern region has more closed-out species than any other. Still, with a number of smaller counties that lack great habitat diversity, it can be very difficult to find certain species in all 24 counties. Nonetheless, thanks to Andy Sigler's new close-outs, Pete Moxon's continued mining of his historical records, updates from Doug Stotz and Eric Walters, and submissions from many other regular contributors, we have many increases in these TCPS numbers including five new closed-out species, bringing the regional total to 121: Bufflehead (Michael Baum & Eric Walters), Hooded Merganser (Doug Stotz), Great Egret (Pete Moxon), Black-and-White and Black-throated Green Warblers (Andy Sigler). How many more are possible in 2017?

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total.
