

IOS Listers Corner 2017

Total Counties per Species List - Northern Region (Top five totals per species - 24 possible counties)

For the first time, Andy Sigler has contributed his 'regional closeouts', species that he has recorded in all the counties in a region, but not all of the counties in the state. This alone provides a whopping 23 new single-observer closeouts in the Northern Region! Pete Moxon also added three new single-observer closeouts this year, and there were an additional two species 'closed-out' by both Moxon and Sigler along with one species closed out by Sigler and Stotz. This total of 29 new closeouts bring the total for the region to a remarkable number of 150 species that have been closed-out by at least one observer!

There are many other new high numbers, personal closeouts, and increased tallies throughout these lists, so take some time to explore. Given the large number of observers in this region, and the volume of submissions, we anticipate that the Northern Region will be the first to expand to eight slots per species in 2018, so there should be even more opportunities for birders to contribute in the near future.

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total.
