

IOS Listers Corner 2018

Total Counties per Species List - Northern Region

(Top eight totals per species - 24 possible counties)

The most obvious change this year in the Northern Region is the expansion of the TCPS lists to eight slots, reflecting the greater number of birders in this region and the large number of submissions in general. As a result of this expansion, we see more frequent appearances by some of the newer names in this category, but also some of the veterans appear again in the lists for species that have highly competitive numbers. There are still opportunities for more people to claim a slot in these lists, though! A total of 155 species have been 'closed out' in the region, and some new, impressive high numbers include 24 Least Sandpiper counties, 19 Peregrine Falcon counties, and 20 Summer Tanager counties (all by Pete Moxon).

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total.
