

IOS Listers Corner 2019

Total Counties per Species List - Central Region

(Top five totals per species - 40 possible counties)

It was a relatively quiet year for submissions of Central region numbers, but even so, every page in the listings has many revised numbers, as listers gradually add to their totals. At the top of the individual species lists there are new high numbers for a variety of species, including those that are rare in the region as well as those that are relatively numerous. A few highlights include 25 Louisiana Waterthrush and 4 Fish Crow counties (Mountjoy), 35 Double-crested Cormorant and 2 Western Tanager counties (Taylor), and 32 Greater Yellowlegs and 3 Western Kingbird counties (Walters). Read on for more high numbers, changes in the lead, and 'photo-finishes' in the hundreds of little competitions below!

The *Illinois Regional Map* can be accessed from the Listers Corner home page.

"Multiple observers" means that 5+ birders have reported the same total. (updated 4/14/20)
